F150 Transmission Problems | It Still Runs

I have a 1998 F-150 4.2L 4X4 with a 5 speed manual transmission. Before heading down a mountain I down shifted into 4th with no problems. After reaching the bottom I pushed my clutch in and shifted into 5th I hit the gas and truck just revved. I then coasted to a stop.

Manual Transmission problems - Ford F150 Forum

"Slipping" is the sensation that your transmission isn't connected to your engine when you press the accelerator. This happens in manual transmission vehicles when the clutch wears out and loses grip intermittently. The F-150's transmission has been automatic only since 2004, but "slipping" still happens for a number of reasons.
